*duck on a swim*

2024

Found rubber duck, single-channel audio and video on screen

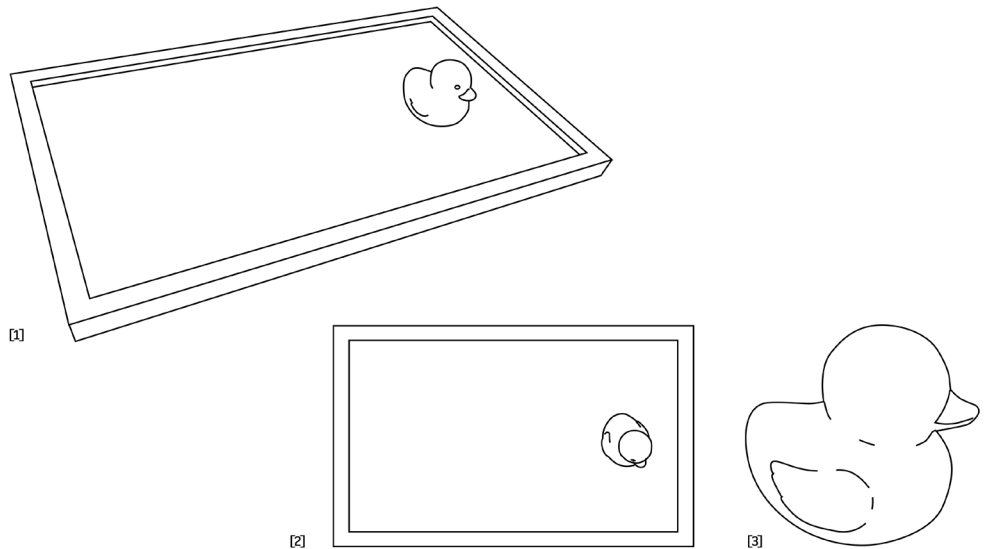

L48.0 x W28.6 x H13.0 cm

## Description

This artwork responds to the rubber duck borrowed from *Found Library 2024*, which was found without the squeaker usually possessed by such toys. Instead, it possesses wear on its surface that appears similar to tire track marks. *duck on a swim* releases this lost and weary bird into pleasant milky waters.

NB: Requires power socket to plug screen.
